Intersection Reconstruction Work on C.T.H. "X" – City/Town of Waukesha

Waukesha, WIS. – Waukesha County will widen the intersection of County Trunk Highway (CTH) "X" (Saylesville Rd.) and CTH "H" (River Rd.) in the City and Town of Waukesha near Waukesha West High School.

Construction activities are scheduled to begin July 11. One lane of traffic will remain open on the road through construction areas during all operations, which will be controlled by four-way stop signs. Travel delays will occur and should be expected, and motorists are advised to take alternate routes when possible.

Emergency vehicles and local residents will be able to access all properties within the construction area.

The project involves adding additional lanes, creating left turn lanes and the installation of permanent traffic signals and pavement markings. It is anticipated that construction activities will be completed by August 26.

For more information, please contact Gary Evans, Project Manager, with the Waukesha County Department of Public Works at (262) 548-7740.
